- That you have obtained and maintain the valid corresponding administrative license that authorizes you to own potentially dangerous animals at the time of the accident.

In the event that several insured dogs are involved in the same accident, the maximum compensation will be the specific limit for this guarantee indicated in the Particular Conditions.

The specific limit for this guarantee is considered to be a sublimit of the Liability established in the article 10 of these General Conditions and therefore it is not supplementary to this.

Application of a deductible:

A deductible of 1,500€ will be applied in the event of an accident if the following security measures were not adopted:

- **In public places and spaces, being lead or controlled with a non-extendable chain or leash that is at least 2 meters long and wearing a muzzle that is appropriate for the type of animal.**

- Taking only one dog per person.
- The potentially dangerous dogs that are located in an estate, country house, detached house, plot of land, balcony or patio or any other defined space will have to be tied up, unless there is a room with the adequate surface area, height and enclosure to protect the people or animals that access or approach these places.

ARTICLE 17 - GENERAL EXCLUSIONS TO ALL OF THE POLICY GUARANTEES

Besides the exclusions for each guarantee, the following damages are also excluded:

- Those caused by the Policy Holders' bad faith.
- Those caused by facts or phenomena whose coverage corresponds to the Insurance Compensation Consortium. Likewise, if this entity does not admit the coverage due to non-compliance with one of the rules established in its regulations or supplementary regulations that are valid on the date of the accident.
- The differences between the value of the incurred damages and the amounts compensated by the Insurance Compensation Consortium when the accident is due to an Extraordinary Risk covered by this entity.
- Those qualified by the governmental authorities as a national catastrophe or disaster.
- Those caused by nuclear reaction or radiation, radioactive contamination or nuclear transmutation, regardless of the cause that provokes them.
- Those caused by armed conflicts, which are understood as being: war, whether it was officially declared or not, seizure, expropriation, nationalization, inspection or destruction of the insured goods ordered by any local or public authority of fact and law.
- Those caused by inherent or evident vice, poor state of the insured goods, construction defects, design errors or defective installation.

- Those caused by contamination or corrosion.
- The accidents that occur as a result of optional risks that have not been expressly guaranteed in the Particular Conditions of the policy or insurance Certificate, if applicable.

ARTICLE 18 - UPDATING THE POLICY

What is it?

The capital that you declared to us at the time of contracting the policy with CASER would remain under its value if it were not updated annually. In order to avoid this, CASER will automatically update the PREMISES AND CONTENT capital EVERY ANNUAL EXPIRY DATE, as well as policy premium, unless agreed upon otherwise.

How is the policy updated?

CASER will adjust the capital and the policy premium by applying the increase that is annually indicated by the Consumer Price Index (C.P.I.), which is published by the National Statistics Institute or any organization that replaces it in the future.

To determine the new capital amounts, the capital listed in the policy will be multiplied by the factor that results from dividing the Maturity Index by the Base Index.

The following terms are understood as:

- BASE INDEX: That which is stated in the policy.
- MATURITY INDEX: The last published value before 1 December of the following year, corresponding to the annual maturity in question.

This automatic modification of capital will not be applied to the amounts expressly established as coverage limits or to the percentage limits.

ARTICLE 19 - COMMUNICATIONS

1. All communications to CASER will be sent to its address that is indicated on the policy.
2. The communications and premium payments that are made in the local offices, branches or offices of CASER or to the insurance agent mediating the contract, have the same effects as if they were made directly to CASER.
3. The communications sent through the insurance agent that mediates the contract with CASER on your behalf have the same effects as if you sent them yourself, unless you indicate otherwise.
4. The communications to you or the beneficiary (see DEFINITIONS) will be sent to the address stated in the policy, unless you have notified otherwise.
5. The insurance contract and its modifications or additions should be formalized in writing.

ARTICLE 20 - MORTGAGE CREDITOR CLAUSE

When the insured property is mortgaged in favour of the person or entity that must necessarily be mentioned in the Specific Conditions, it is expressly agreed that:

- In the event of a claimable event, the Insurer shall not pay out any amount in concept of compensation without prior consent from the third party creditor, in favour of whom the Insured Party stipulates assignment of its rights for an amount equal to the loan not amortised on the date of the claimable event, with priority over any other beneficiary.

- In the event of failure to pay the premium, the Insurer shall notify the mortgage creditor so that it may, if convenient for its legal interests, pay the unpaid premium, even in the face of opposition by the Policyholder or the Insured Party.
- Termination of the contract shall not be opposable to the mortgage, pledge or priority creditor until one month has elapsed since said creditor was notified of the reason for the termination.

ARTICLE 21 - ACCIDENTS

1. HOW ARE THE DAMAGES VALUED?

The valuation of damages to the insured goods will be done in accordance with the following rules:

For the premises

BY ITS NEW CONSTRUCTION REPLACEMENT VALUE at the time before the accident: by using modern materials of equal performance. The foundations are included, but without including the value of the piece of land.

The reconstruction will be done in the same location as before the accident, without doing any significant modification to its initial placement. This guarantee will be equally applicable if the reconstruction cannot be carried out in the same place due to imperative legal provisions or regulations, as long as it is reconstructed in another location.

In the event of partial damage, the damage assessment will only cover the cost of repairing the damaged part, applying that which was established in the previous paragraphs.

For the content

Furniture: BY ITS NEW REPLACEMENT COST at the time before the accident. If equal goods do not exist on the market, others of similar characteristics and performance will be used as a base for valuation.

Supplies and provisions: by their purchase value on the market at the time before the accident.

Jewellery and objects of special value: by their market value at the time before the accident.

If a partial damage affects collections, including stamps and coins, or any other object that is part of a set or collection: **by the value of the damaged part, without considering the depreciation caused by the possible loss of integrity of the collection or set by becoming incomplete.**

In the event of partial damage, the damage assessment will only cover the cost of repairing the damaged part, applying that which was established in the previous paragraph.

For other damages: by the real and effective value of the objects.

2. RULES FOR DETERMINING THE COMPENSATION

In order to determine the compensation of the contracted guarantees, the following rules and concepts will be considered.

The insurance cannot be subject to unjust enrichment for you.

In order to determine the caused damage, **the value of the insured interest will be respected** at the time right before the accident occurs.

INSURED INTEREST: This is the relationship between the Policy Holder and the insured good. In fact, you do not insure the good but rather the interest on that good to the extent that its deterioration or loss implies an economic loss for you.

INSURED AMOUNT: Value attributed by you to the insured goods that represents the maximum limit of compensation to be paid by CASER for each accident, which should correspond with the INSURED INTEREST.

NEW VALUE: This is the sales or replacement price of a new insured object.

REAL VALUE: This is the sales price of the insured object after deducting the depreciation from the use or age that it could have.

PROPOSED CAPITAL: This is the approximate capital that CASER recommends for you to insure the PREMISES and/or the CONTENT, which aims to help you determine the value of these items. If you accept one or both, the proportional rule will be waived in the event of an accident.

UNDERINSURANCE: This occurs when the INSURED AMOUNT is less than the NEW VALUE of the insured goods.

OVERINSURANCE. This occurs when the insured amount notably exceeds the value of the insured goods.

PROPORTIONAL RULE: If at the time of the accident, the INSURED AMOUNT is less than the NEW VALUE of the insured goods, there is an UNDERINSURANCE and CASER will compensate the damage caused in the same proportion that the insured amount covers the insured interest.

Example:

If you insured a good for 100 when you should have insured it for 150, the proportion that exists between both means that you underinsured it by 33%.

Therefore, your insured interest will be equally reduced in the same proportion from the insured amount, in such a way that in the event of an accident with damages valued at 60, you will receive the corresponding proportion, 33% less, meaning 40.20.

Waiving the application of the proportional rule

If you have accepted the PROPOSED CAPITAL of Premises and/or Content, or have indicated a capital that is more than the PROPOSED CAPITAL, CASER waives the application of the PROPORTIONAL RULE to 100% in the event of an accident.

If the capital indicated by you is under the corresponding PROPOSED CAPITAL and the difference between the NEW VALUE and the INSURED AMOUNT is less than 30%, CASER may also waive the application of the proportional rule in the event of an accident.

If the difference between the NEW VALUE and the INSURED AMOUNT is more than 30%, CASER will apply the PROPORTIONAL RULE in the event of an accident.

To waive the application of the proportional rule, your policy must apply the automatic updating of capital, as stated in the article 17 of these General Conditions.

In any case, the maximum amount of compensation will be the insured amount listed in the Particular Conditions.

Compensation of capital

If there is an excess in the insured amount of PREMISES or CONTENT at the time of the accident, this excess may be applied to the good that is insufficiently insured, **as long as the resulting premium with the applied new capital does not exceed the current satisfied annual payment. This compensation will only be applicable to goods corresponding to one home.**

The insured amounts of first risk guaranteed goods will not be applicable to this compensation.

Equity rule

When the circumstances of the risk are different from those known by CASER due to your inaccuracy in the declaration or due to aggravation of risk that you did not communicate to us at the time of the accident, the compensation will be proportionally reduced to the difference between the agreed premium and that which would have been applied if the true at-risk entity was known.

COMPLETE LEGAL DEFENCE

In everything not specifically regulated below, the provisions of the Preliminary Article and those that follow these General Conditions shall be followed, where the contractual terms and conditions of the unique policy are established.

CASER guarantees that no staff member that takes on the legal advising related to this guarantee will practice a similar activity in another industry at the same time.

What is Legal Defence?

It is a coverage that guarantees the payment of expenses that you could incur through your intervention in an administrative, judicial or arbitration procedure, which are expressly stated in the INSURED GUARANTEES section, as well as the provision of legal assistance services through the insurance coverage.

What expenses are insured?

- Lawyers' fees pursuant to the guidelines of their law societies, drawn up for costs appraisal and, as appropriate, of court lawyers, pursuant to the prevailing rules on professional fees.
- The expenses for notaries and granting of powers for lawsuits, as well as the records, requirements and other acts needed to defend your interests.
- The fees and expenses of experts designated by CASER.
- Legal fees, when they are sentenced to you.

What is the definition of an accident?

For the purposes of this coverage, an accident is understood to be any unforeseen act or event that causes harm to your interests or that modifies your legal situation.

The total damages due to the same cause are defined as one single accident or event, even when they are not simultaneously stated or affect several people or goods.

There should always be an assessable damage that is more than 120€ per accident.

Temporary scope of the insurance

The events or accidents occurring during the validity of the policy are guaranteed.

In the event of cancelling the policy, the events or accidents are still guaranteed if they occurred during the validity of the policy and were declared

in the two years after the occurrence, except for fiscal matters, when the deadline is extended to five years.

In order to determine when the event or accident occurred and therefore to determine your coverage or exclusion, the following criteria will be followed:

- In the event of claims for non-contractual negligence, the accident or event will be considered to have occurred at the time when the damaged was caused.
- For lawsuits over contractual matters, the accident or event will be considered to have occurred at the time when the opponent, third party or you began or supposedly began to violate the contractual rules.
- For tax law issues, the event will be understood to have occurred at the time of declaring taxes or, if applicable, on the date when this should have been done.

Territorial scope

For legal issues related to the home, claims for objects, furniture, domestic service, tax law and telephone extrajudicial advising, the insured events occurring in Spain corresponding to the competence of Spanish courts of law are guaranteed.

For the other benefits, the events or accidents happening in the European Union that correspond to the competence of ordinary courts of law in the countries that make up this union will also be covered.

Gibraltar and the Principality of Andorra will be considered part of Spain for the purposes of the insured guarantees.

Insured amount

The insured amount is 3,000 € per accident, with an annual maximum for the combination of accidents of 9,000 €.

The protection of your interests related to the home insured in this contract and located in Spain is guaranteed, in the following cases:

When the occupational jurisdiction is not competent, the defence of government employees' rights will be limited to the offering instructions about the administrative file and later resources that should be resolved by the administrative Authority.

The criminal responsibility defence is also insured in the subsequent processes against you during and regarding the performance of your job as a salary earner.

Special job contracts are excluded, as well as the acts deliberately caused by the Policy Holder according to the firm final judgment.

Free choice of lawyer and court representative

The Insured Party will have the right to freely choose the lawyer and court lawyer to represent and defend his or her in any kind of procedure covered; any such professionals will not be bound by instructions from the Insurer.

The Insured Party will have the same right to freely choose lawyer and court lawyer in cases of conflict of interests, whether between the Insured Party and the Insurer or between the Insured party and any other entity belonging to Grupo Caser, to which this entity belongs, pursuant to that established under Section 42 of the Commercial Code. The entities belonging to Grupo Caser are set out on the web page www.caser.es.

The designation must be notified to the Insurer by any certifiable means, as soon as possible.

If the Insured Party makes use of this freedom of choice without carrying out the mandatory notification, the Insurer's liability shall be limited to a maximum of €150 for all concepts, even when the amount of expenses is greater.

The free designation of professionals only refers to the court procedures, with no cover for the payment of their fees for any friendly out-of-court procedures they may carry out.

This cover does not include the expenses derived from unfounded claims due to lack of means of proof to make them viable or when they are unfounded due to the liability of the claimable event or when the declarations are manifestly disproportionate in respect of the appraisal of the damages suffered. Nevertheless, the Insurer will take charge of payment of said expenses if the Insured Party takes the legal action and obtains a favourable judgement or compensation in an amount similar to the initial objective. In this respect, the Insurer undertakes to notify the Insured Party regarding this circumstance and to carry out whatsoever actions that, due to their urgent nature, may be required to ensure the Insured Party is not left undefended.

The Insured Party will be entitled to submit to arbitration any dispute that may arise with the Insurer. Designation of arbiters may not be carried out before the discrepancy arises.
